Visual Supports and Autism - Autism Speaks

When it is time for an activity on the schedule to occur, cue your child with a brief, verbal instruction. For example, say "Check the schedule." This helps your child pay attention as the next activity begins. At first, you may need to physically guide your child to check the schedule (e.g., gently guide by shoulders and prompt

Computer Basic Skills - Net Literacy

The arrow/cursor/pointer is the visual cue that points, moves, and selects things on monitor. You can remember this as your "electronic finger" that points to things on your computer screen (monitor). The mouse pointer is somewhat like your virtual finger inside the computer. It may change shapes as you move it around the screen -

What are Core Beliefs/Mental Filters?

Core beliefs/mental filters are often hidden beneath surface-level beliefs. For example, the core belief "no one likes me" might underlie the surface belief "my friends only spend time with me out of pity".
