Pilgrimage Tourism C. Aruljothi 2019-06-07 People in general and pilgrims in particular go on pilgrimages to temples, mosques, churches, gurudwaras for worshipping their religious gods and goddesses. But, tourism and pilgrimage are intertwined with little differences. Religious tourism is based on time involved and distance travelled namely short- and long-term religious tourism. The short-term type involves travel to nearby pilgrimage centres or religious conferences, or religious discourses while the long-term religious tourism involves travel to religious sites and religious conferences around the world. Pilgrimage is "the result of a vow". India is a land of temples, mosques and churches. They play significant role in the development of any economy. Temples in India, particularly in Tamil Nadu play different roles such as redistributors of income, producer, consumer, land-owner, employer, trustee, tourist centre, religious, cultural, social and economic institution. Pilgrimage is aimed to attain moksha - the ultimate aim of individual. Moreover, pilgrimage tourism is considered as an instrument of stress relief, and it is one of the most understudied and least researched areas in tourism and leisure economics. With this backdrop, the book "Pilgrimage Tourism in India" is initiated with the following objectives viz: to examine socio-economic, cultural and environmental profiles of pilgrim tourists and local residents of Palani town and temple environs; to identify factors determining pilgrimage tourism and to examine perceptions of pilgrims on the socio-economic overheads, facilities and services exist at Palani town and temple environs; to gauge the perceptions of local residents on social, economic, cultural and environmental impacts of pilgrimage tourism to Palani town and temple environs; and to identify problems emerging from pilgrimage tourism and economic changes to local residents and to make suggestions for policy for pilgrimage tourism, benefiting both the pilgrims and the local residents of Palani town and temple environs. Contents : Introduction, Role of Tourism in Economic Development, Realities of Pilgrimage Tourism, Pilgrimage Tourism in Tamil Nadu—A Case Study, Socio-Economic Analysis of Pilgrimage Tourism, Conclusion.

India in South Asia Amit Ranjan 2019-05-11 This book discusses the perceptions India has about its South Asian neighbours, and how these neighbours, in turn, perceive India. While analyzing these perceptions, contributors, who are eminent researchers in international relations, have linked the past with present. They have also examined the reasons for positive or negative opinions about the other, and actors involved in constructing such opinions. In 1947, after its independence, India became part of a disturbed South Asia, with countries embroiled in problems like boundary disputes, identity related violence etc. India itself inherited some of those problems, and continues to walk the tight rope managing some of them. Traditionally, seventy years of India's South Asia policy can roughly be categorized into three overlapping phases. The first one, Nehruvian phase, which viewed the region through a prism of an internationalist; the second one, 'interventionist' phase, tried to shape neighbours' policies to suit India's interests; and the third, accommodative phase, when policy makers attempted to accommodate the demands of the neighbours in India's policy discourses. These are not ossified categories so one can find that policy adopted during one phase was also used in the other. Keeping the above in mind, the book discusses India's role in managing and navigating through challenges of the presence of external, regional and international, powers; power rivalries in South Asia; India's maritime policy and her relationship with extended neighbours; and India being visualized as a soft power by South Asian countries. It will certainly appeal to the academicians, students, journalists, policy makers and all those who are interested in South Asian politics.
