**Civility in Crisis** Suryakant Waghmore 2020-12-24 This book critically examines the relationship between civility, citizenship and democracy. It engages with the oft-neglected idea of civility (as a Western concept) to explore the paradox of high democracy and low civility that plagues India. This concept helps analyse why democratic consolidation translates into limited justice and minimal equality, along with increased exclusion and performative violence against marginal groups in India. The volume brings together key themes such as minority citizens and the incivility of caste, civility and urbanity, the struggles for "dignity" and equality pursued by subaltern groups along with feminism and queer politics, and the exclusionary politics of the Citizenship Amendment Act, to argue that civility provides crucial insights into the functioning and social life of a democracy. In doing so, the book illustrates how a successful democracy may also harbour illiberal values and normalised violence and civil societies may have uncivil tendencies. Enriched with case studies from various states in India, this book will be of interest to scholars and researchers of political science, political philosophy, South Asian studies, minority and exclusion studies, political sociology and social anthropology.

**Extraordinarily Ordinary** KRG 2015-12-28 This collection of sixteen short stories is like music of varied, soft notes and chords which is soothing and pleasant and has a simple beauty. The delineation of characters and emotions has no sharp strokes or harsh lines. Ordinary people go about their daily business and yet manage to find narratives hidden in the hum-drum of a daily routine. These stories celebrate the ordinary fears, anxieties and joys of the common man. Trivial fragments are defined with clarity and its very placidity and reality startles the reader. They do not shake our sense of security or safety but in some reassuring way intensifies it. Fourteen of the sixteen stories are in the first person narrative and this adds a certain candour and poignancy to the emotions. The sagacious narrator foregrounds in his subtle understanding and wisdom a penetrating vision of compassion and sympathy. The style of narration has no philosophical complexities or psychoanalytical exploration. Avoiding frills or gimmicks, it uses implication and understatement to make its point. It is a must read for all those people who have had these simple experiences in the process of their lives pilgrimage. -Mrs. Kasturi Kanthan, Former Associate Professor, Department of English, Lady Sri Ram College for Women, University of Delhi

**Nothing Else Matters** Vish Dhamija 2016-11-27 Luv Singh is a hired gun; he carries out assassinations for an underworld don. The clients are anonymous, so are the targets. Out one night on a job, he awaits his target to climb out of the car that's just arrived at the scene. As he looks through the scope of his rifle, his finger on the trigger, he sees his target accompanied by one of the most gorgeous women Luv has ever seen: Zoya. Zoya Merchant was Luv Singh's girlfriend back in college, almost two decades earlier. He fails to take a shot. He's betrayed Zoya once before; he cannot assassinate her husband. Knowing that the mafia doesn't condone failure or dissidence, he still pledges to save Zoya's husband from whoever's calling the shots. Nothing Else Matters is a riveting tale set alternately in the criminal underworld and Zoya and Luv's college lives, and about making choices that impact lives forever. It is crime fiction, but it is also a heart-breaking romance of a love that never dies. Come,

fall in love with its flawed characters that cannot be forgiven, but will always be loved.

Plunkett's Automobile Industry Almanac 2008 Jack W. Plunkett 2007-10 The automobile industry is evolving rapidly on a worldwide basis. Manufacturers are merging, component design and manufacture are now frequently outsourced instead of being created in-house, brands are changing and the giant auto makers are expanding deeper into providing financial services to car buyers. The skyrocketing price of gas spurs developments in hybrid technology and clean diesel, as manufacturers look for ways to improve fuel efficiency. Meanwhile, all of the biggest, most successful firms have become totally global in nature. Plunkett's Automobile Industry Almanac will be your complete guide to this immense, fascinating industry. On the car dealership side, giant, nationwide holding companies have acquired the best dealers in major markets. Even the used car business is being taken over by national chains. E-commerce is having profound effects on the car industry. Consumers use the Internet to become better informed before making a purchase. Online sites like Autobytel steer millions of car buyers toward specific dealers while the same sites deliver competing bids for cars, insurance and financing in a manner that lowers costs and improves satisfaction among consumers. Meanwhile, auto makers are using the latest in e-commerce methods to manage their supply chains and replenish their inventories. This exciting new book (which includes a database on CD-ROM) is a complete reference tool for everything you need to know about the car, truck and specialty vehicles business, including: Automotive industry trends and market research; Mergers, acquisitions, globalization; Automobile manufacturers; Truck makers; Makers of specialty vehicles such as RVs; Automobile loans, insurance and other financial services; Dealerships; Components manufacturers; Retail auto parts stores; E-commerce ; and much, much more. You'll find a complete overview, industry analysis and market research report in one superb, value-priced package. This book also includes statistical tables, an automobile industry glossary, industry contacts and thorough indexes. The corporate profile section of the book includes our proprietary, in-depth profiles of the 400 leading companies in all facets of the automobile industry. Purchasers may also receive a free copy of the company profiles database on CD-ROM.

Agastya Naadi Samhita Dr S.P. Bhagat 2017-01-05 In today's world of science, if just from the impression of your thumb somebody accurately tells you, your name, the names of your mother, father, husband/wife, your birth-date, month, age etc. what would you call such prediction? Would you regard it as an amazing divination or as black magic? No, it is neither black magic nor a hand trick. Such prediction, which defies all logic and boggles one's mind, forms the subject-matter of the Agastya Naadi. Those predictions were visualized at different places by various ancient Sages, with their divine insight and factually noted by their chosen disciples, thousands of years ago, to be handed down from generation to generation. This great work makes us realize the limitations of human sciences. That great compilation predicting the future of all human beings born or yet to be born, eclipses the achievements of all other sciences put together!

History of Maintenance of Indian Air Force 1977-2016 A Krupakaran, P Khandekar 2022-08-13 IAF from its humble beginning in 1932 has transformed itself into fourth largest AF operating at frontiers of technologies with multi-dimensional capabilities and a potent force to reckon with. It is said that the history is written by winners. But what is important is that the history is documented impartially, objectively and factually, as much as possible. It may be worth for IAF to consider coming out with a book each on Operations, Maintenance and Administration, depicting the historical decisions taken - successes and failures in equal measure - and how the IAF progressed over the decades to be what it is today - a professionally managed, optimally exploited, synergistically working and one of the most effective instruments of national power to ensure accomplishing objectives of the nation. Yes, coffee table books and anniversary issues do gloss over a few events, but the real history is made by the toil,

blood and sweat and tears of the men behind these operations. Individual awards and citations many times compromise on actualities and are miserly with truth. "History is an argument without an end" said Pieter Geyl the Dutch historian. "I am glad to recommend this book to all, as the readers of the book, irrespective of their background, will enjoy the journey of these "spanners and screwdrivers" of 12 AEC covering almost 900 man-years of IAF maintenance. It is also bound to raise curiosity in many minds to know more about air force maintenance. The book may act as a lighthouse for a lot of the present serving aeronautical engineers in their progression." " Air Marshal KS Bhatia, PVSM AVSM & BAR "40 years of IAF maintenance history told through the voices of 39 outstanding air force officers with an unsurpassed breadth of experience and accomplishments. Most inspiring." " Ramesh Dontha, Author of The 60-Minute Startup series of books, 3 times bestselling author, Gold Medal Award winner in 2020 Reader's Favorite International Competition (Marketing)

Million Cars for Billion People Gautam Sen 2014-10-11 Can one car transform a nation? The Ford Model T did do so a century ago when it replaced the horse, brought about a revolution in agriculture, became a stimulus to urbanization that eventually changed the landscape of America. Though the Maruti 800, the Tata Indica, the Hyundai Santro and the Maruti Alto, became engines of growth for India, these cars neither drove away the cow nor changed the way Indians travelled. Tata's Nano was expected to change all that and become the ultimate people's car, capturing the imagination of the middle class across nations and cultures. In spite of its petite dimensions, the Nano was meant to stand tall. Yet it did not. What caused it to fail and fall from grace despite being lauded as the "right product at the right time" and "the most significant new car since the Ford Model T was introduced 100 years ago"? But is it really all over or is there still hope for India's "little wonder"? What will the people's cars of tomorrow be like? A Million Cars for a Billion People delves into the questions, concerns and doubts, as well as the many misconceptions and myths, that have gathered momentum over the years about India's automotive history and the industry's mission to create a true "people's car". The very first cars that came to India; the early beginnings of the industry; the nascent history of the automobile across nations like Germany, France, US, the UK, Italy, Japan and South Korea, is narrated with authority and charm, from the viewpoint of the quest for the ultimate people's car.

Naadi Predictions Shashikant Oak 2014-02-18 Wing Commander (Retd.) Shashikant Oak of Pune has a great contribution in bringing the Naadi palm leaf based astrological system into limelight. For about past 18 years, he has been conducting an original research on the aforesaid system. His research includes various scientific angles, and has given the whole subject a new dimension. To conduct the original research, he has visited almost all the Naadi centers in India during the course of last 18 years, apart from individually meeting a thousands of persons to take on account the firsthand experiences. He has also presented a detailed paper called 'Comparative Study: Nostradamus and Naadi Granthas.' This revised and enlarged edition includes fresh astonishing experiences such as:- readings from blank paper, appearance of vibhooti upon the palm leaf, shocking episodes of Group Caption Rakesh Nanda throwing light on the ancient Maharishi's wisdom available in India. First time more than 220 addresses from all over Indian states have been presented in alphabetical order. Excerpts from the interview of Padamshree Dr. Vijay Bhaskar: "As I am a scientist; while thinking about the Naadi palm leaves, my entire focal point was the computational aspect of it. How do the Maharishis know in advance the names and other information about the native? After an in-depth study, I conclude: if the supercomputers of ten years from today compute this information, it will take 10,00,00,00,00,00,00,00,000 calculations to collect information of one native. Simply putting, it is mathematically impossible. In the terms of computer science, this is referred to as the NP complete problem." Here is sample how the name of a person appears in the leaf:

My Date with Editors Jyotindra Nath Prasad 2019-02-28 The book unfolds my professional performance. I have revealed my best and the worst both. It is a saga of a journalist though many would doubt whether work as proof-reader counts for journalism as it was not considered the mainstream of journalism, rather a stigma attached with the likes of me for 16 years in a row. Then there is reporting stint for 20 years which had its pitfalls and glory. Expressing views on contemporary issues has been changeable because I hold opinion and opinion does not hold me. Non-payment to my contribution to periodicals as free-lance journalist may sound grumbling, but it is pain of a pen-pusher who at last surmises that one cannot survive with free-lancing in Bihar. Readers may ask why I don't write for the periodicals published outside Bihar. Frankly speaking I don't consider myself as a journalist of calibre. I am still a student of journalism. Moreover, I have been interested in matters Bihar from very beginning and am still groping in darkness as far as knowledge about my native state is concerned. The book is a not a literary piece that would involve your attention. As journalism is a literature in hurry, my writing in English may not be considered upto the mark and for many literary geniuses and eminent journalists it may be a foolish exercise. But I am sure that whoever came into my journalistic sphere his resemblance can be found in me somewhat or more. Journalism is cynic business and one can find fault with himself also. It is a human nature and if I have complained or ridiculed anyone, I seek his pardon. I forgive and forget myself and others. The book may not be for the use of many but may hold interest of the journalists and if it is so, then I am a success. It is for you readers to decide. Book dedication To my mother who has always been an inspiring force to me.

Prisoner's Dilemma Vish Dhamija 2021-04-22 Bipin Desai and Anuj Shastri are two best friends who lead equally pointless lives. But that doesn't stop them from dreaming big and getting rich fast. Together, they concoct a plan to rob a van full of cash and manage to get away with loot of over one crore rupees. But the van belongs to one of the wealthiest families in Delhi, which means there is pressure on the police to solve the case quickly. The two are arrested within days, but the cash is still nowhere to be found. The officer-in-charge, Senior Inspector Arfy Khan, has forty-eight hours to make Bipin and Anuj confess to their crime by convincing one of them to go against the other. The two friends only have to keep their calm and their stories straight in front of the police officer. But there is one major obstacle: SI Khan isn't allowing Bipin and Anuj or their lawyers to see or talk to each other. Will the two survive the test of their friendship? Or will they choose personal freedom in the face of a twisted dilemma?

PRODUCT MANAGEMENT IN INDIA RAMANUJ MAJUMDAR 2007-12-19 This completely revised and updated text, now in its Third Edition, continues to explain the underlying concepts of product management. In the process, the book equips the budding as well as the practising managers with sufficient knowledge about how to deal with different problems faced in managing any typical fast moving consumer good or durable product. Divided into three parts, the book provides, in Part I, a macro perspective of the Indian market. Part II offers an analytical discussion interspersed with vivid illustrations on conceptual issues like branding, segmentation, positioning and differentiation. Part III features several new products; it also provides latest information on the products presented in the earlier edition. In addition, it analyzes the current market situation prevailing for a particular product in India. Finally, here, each chapter shows how leading companies are successfully marketing the particular product in the Indian market. WHAT IS NEW IN THIS EDITION : The new edition incorporates the challenges offered by many new trends like growth of modern trade, explosion of the media, and the increasing influence of rural market in India. Chapters on The Indian Market: Emerging Panorama, and New Marketing Challenges expose the students to contemporary concepts and examples. Part III offers new chapters on market analysis on products such as Tea, Soft Drinks, Chocolates, Malted Beverages, Packaged Drinking Water, Tooth-Paste, Detergents, Fairness Cream, Footwear, Mobile Phones, and Digital Camera. Besides, it gives up-to-date background information for other products covered in the earlier edition. The Student CD contains a set of PowerPoint Presentations (PPTs) of 20 products. This well-established study has been widely adopted as a textbook in MBA programmes across the country. The Third Edition is more profusely illustrated with exhibits, diagrams and PPTs, and should be of immense utility and worth to the students of management as well as practising brand managers and executives in the advertising arena.

Brand Management Harsh V. Verma 2006 Brands are wealth generators of the 21st century. With this in mind 'Brand Management' focuses on the key decision areas of competition and brand, concept of brand, brand equity, brand over time and branding strategies. The theoretical constructs are illustrated using case studies.

The New Khaki Arvind Verma 2010-12-14 In a democratic society, police are expected to be accountable to the people they serve, upholding the rights of citizens and following due process. In India, however, political pressure in the competitive electoral arena forces the police to adopt questionable means and dubious strategies. As a hierarchical bureaucratic organization, disciplined in a military tradition and schooled in colonial traditions of

deference to authority figures, India's police personnel have effectively alienated the very people they are supposed to serve and protect. In response to the overwhelmingly bleak pessimism of researchers and analysts scrutinizing India's police force, *The New Khaki: The Evolving Nature of Policing in India* highlights those unobtrusive and indirect paths toward effective transformation in spite of politicians and bureaucrats. Analyzing the obstacles to reform, the book argues forcefully and systematically to present areas of potential innovation and successful case studies. Focusing on practical and actionable options, the book examines how the use of new technology, the judiciary, and other creative administrative mechanisms can give determined police leaders the methods to change the policing system and its practices. It also provides strong evidence for the role of research and scholarship in transforming the police organization, offering illustrative examples and creative responses to endemic problems. The case studies presented here suggest that even when the powerful sections of society and those who control the police are not ready to bring changes, imaginative police leadership can find creative means to transform their organization to serve the people. *The New Khaki: The Evolving Nature of Policing in India* is a must-read for all those who are concerned about policing and interested in its improvement for a better world.

*The Odyssey of Enlightenment* Berthold Madhukar Thompson 2015-10-30 n 1991, Berthold Madhukar Thompson was declared enlightened by a renowned Indian teacher. Yet Madhukar's search for truth was not over; he himself was not convinced that he had achieved the summit of enlightenment. *The Odyssey of Enlightenment* chronicles the burning quest of a man already acknowledged to be enlightened, as he searches for--and ruthlessly questions--a total of 12 other teachers others who are widely recognized as enlightened. Spurred on by an unquenchable yearning for truth, Thompson's odyssey takes him to remote parts of India where he engages in dialogues of a quality and depth rarely found in the annals of religion. A chronicle of the author's burning quest for truth, as he tirelessly questions a total of 12 spiritual teachers, including Osho, U.G. Krishnamurthi, Ramesh S. Balsekar, Papaji, Gangolli, Kiran and Andrew Cohen, amongst others. Contemplative dialogue of an unparalleled quality and depth.

Tender Killers Ananthakrishnan 2016-10-24 A newly-elected prime minister assumes power. Vicky, a college kid, takes part in a competition. Chitra and Raju, school kids, flaunt their gifts from their online friend. A terrible web of terrorism weaves them together. How does Murthy Uncle fit in the picture? Are children, the future of the nation, spared from the impending violence? With all the stakes high, the prime minister, along with the RAW agents, sets forth to save the nation. Does he succeed?

*Borderlands* Pradeep Damodaran 2017-02-25 For most residents of India's bustling metros and big towns, nationality and citizenship are privileges that are often taken for granted. The country's periphery, however, is dotted with sleepy towns and desolate villages whose people, simply by having more in common with citizens of neighbouring nations than with their own, have to prove their Indian identity every day. It is these specks on the country's map that Pradeep Damodaran rediscovers as he travels across India's borders for a little more than a year, experiencing life in far-flung areas that rarely feature in mainstream conversations. In *Borderlands*, he recounts his encounters with the war-weary fishermen of Dhanushkodi at the southernmost tip of Tamil Nadu, who live in fear both of the Indian Coast Guard and the Sri Lankan navy; farmers in Hussainiwala, a village on Punjab's border with Pakistan, who are unwilling to build concrete houses for fear of them being destroyed in the ever looming war; Tamil traders of Moreh, a town straddling the Manipur-Myanmar border, who pay bribes to at least ten different militant organizations so they can safely conduct their business; and ex-servicemen in Campbell Bay who were resettled there three generations ago and have long been forgotten by the mainland. From Minicoy in Lakshadweep to Taki in West Bengal, Tawang in Arunachal Pradesh to Raxaul in Bihar, Damodaran's compelling narrative reinforces the idea that, in India, a land of contrasts and contradictions, beauty and diversity, conflict comes in many forms.

Universal's Guide to Judicial Service Examination

Production & Operations Management Upendra Kachru 2009 This book takes a pedagogical approach that is participative and interactive, involving the case study method of learning. Chapters start with an Indian case study of a well known company. This is used as a capstone case for the chapter. The student will find this an easy learning experience as data and additional information for these enterprises is readily available. The selection of such cases makes classroom learning truly suited to the Indian business environment. The value driven approach to Operations Management is used in structuring the text into three modules. The first module discusses the infrastructure function of Operations Management. Infrastructure function is considered to be product, process, capacity and location. Module Two describes the structure of the operations function. This includes quality and other product transformation processes. Module Three focuses on the organization, people and processes i.e. the

job, the work, and the workplace. In addition, most of the mathematical techniques have been separated into supplements attached to the relevant chapters. Software solutions for the techniques have been explained in the text. Every mathematical technique is exemplified with a number of solved problems. Unlike many Production and Operations Management texts, this book covers E-commerce, Industrial Safety, Maintenance, Environmental Management (Green Productivity) and new technological trends in the discipline. These sections should add to the significance of exploring how firms can gain competitive advantage and promote sustainable development at the same time. The last section of the book comprises of a selection of cases from The Indian Institute of Management at Ahmedabad. The cases encompass the entire spectrum of Indian Industry the private and the public sectors, professional and family managed business organizations, service and manufacturing industries, single industry and conglomerates. The cases relate to Operations Strategy, Supply Chain Management, Capacity Planning, New Products, Manufacturing Technologies, etc. The Case Studies are of world class. Prof. Tirupati, one of the authors of the case studies, according to Management Science, has penned one of the top 100 management articles in the 50 years. The book is comprehensive, lucid and easy to read and understand. It should be of great value both to students and faculty.

Wanneer de cyclonen komen Anita Nair 2011-03-07 Een hartverwarmende roman over redding, vergeving en tweede kansen. Meera is een mooie, leuke, goed verzorgde corporate wife met een succesvolle carrière als kookboekenschrijfster. Op een dag komt haar echtgenoot na een feestje niet thuis en verlaat haar. Ineens is ze in haar eentje verantwoordelijk voor haar kinderen, maar ook voor haar moeder en grootmoeder, plus het Lilac House, hun oude familiehuus in Bangalore. Professor J.A. Krishnamurthy, kortweg JAK, is een bekend onderzoeker op het gebied van cyclonen. Hij zit op een heel ander traject in het leven. In een slaapkamer thuis ligt zijn negentienjarige dochter Smriti in een coma, nadat ze door een stel jongens zwaar is mishandeld tijdens een vakantie. Rondom dat incident staat een muur van zwijgen en angst, en de rouwende vader wordt in zijn zoektocht naar de ware toedracht noch door de lokale politie terzijde gestaan, noch door de vriend van zijn dochter. Door een aantal toevalligheden draaien en kolken de levens van Meera en JAK om elkaar heen, onvoorspelbaar en onontkoombaar als een cycloon, en waar aanvankelijk alleen leegte en wanhoop leken te heersen, ontstaat voorzichtig iets van een nieuw begin.

The Missing Letters Mohammed Ubaid Mohan, Shobha, and I are fast friends. Perhaps that is why they have been branded as "Fevicol friends." To be honest, the last four years during our graduation, they were more like family to me than friends. I am Vineet Sabrawal, hailing from a middle-class business family in Udupi. On the other hand, my friend Shobha is a carefree girl from a well to do family who has nothing to worry about. Mohan is the more sincere and upright among the three of us. He comes from a family struggling to meet their end needs and is seldom wrong between us. When he found something fishy about a person on the streets of Udupi, I and Shobha had to be a part of his journey. We could not have left him alone in his quest to know to investigate this mysterious guy. After all, we are friends through thick and thin. A small suspicion of Mohan's overworked mind has put us all on a path that will eventually change our lives and the lives of everyone around us. We were happy that we were serving our country, India, my first valentine, that has suffered from the enemies who are inside her territory like termites and trying everything to devour it. The Indian forces are doing all in their hands to protect our beloved motherland, and without wearing the uniforms, fate has given us a golden chance to serve our nation in some unanticipated circumstances. We would not have thought that a small mere hunch of Mohan will put us on the path that would make us most unlikely heroes. Not realising what was in store for us, ultimately, we helped the agencies crack one of the most compelling cases in Indian intelligence in recent times. I feel like quoting my favourite quote from the movie THE IMITATION GAME, "We have a lot more unlikely heroes now, it's not just the guy with the guns, but the guy with the brains." Thank you, Mohan, for making us those heroes and Shobha for being there with us through and through. Your friend forever, Vineet Sabrawal

Uncivil City Amita Baviskar 2019-12-09 As cities become habitat for most of humanity, the question of their ecological capacity to sustain lives worth living becomes ever more critical. Yet, when we listen to debates about city planning and governance, and observe urban environmental campaigns on the ground, we notice that they have little to do with ecology or justice. To examine this contradiction, *Uncivil City: Ecology, Equity and the Commons in Delhi* looks at two decades of environmental politics in Delhi—across homes and workplaces, ordinary streets and extraordinary spectacles, and the river and the Ridge. It argues that the terms of the discourse—what is an environmental issue, who is authorised to speak, and which modes of action count as legitimate—are partial, particularistic and perverse. “Bourgeois environmentalists”, who claim to speak in the public interest, for nature and society, have made the city what it is: unfair and unliveable. Only citizenship and civility will save the commons—air, water, space and trees—upon which cities depend for survival.

QUANTITATIVE TECHNIQUES FOR MANAGERIAL DECISIONS R. B. KHANNA 2012-05-19 This book is specially designed for a course in Quantitative Techniques taught to MBA students. It provides the students with a thorough introduction to basic quantitative tools required to perform analytical evaluations and arrive at logical decisions. The second edition of the book essentially retains the flavour of the first edition. Concepts have been explained in an easy to understand language and emphasis is on practical applications rather than rigorous mathematical treatment. As far as possible, detailed proofs and axioms associated with pure mathematics have been avoided. The text in the second edition has been suitably modified for giving better clarity. Nearly fifty solved examples have been added to various chapters to enable students to understand the nuances of problem solving. Fifty unsolved problems have also been added to give ample scope to the student for practice. The book also includes chapters on transportation models, assignment models and network analysis. KEY FEATURES : Learning objectives at the beginning of each chapter enable students to focus on important points of a chapter. Case studies and real life problems to connect students to the real-world situations. Worked examples to enhance student comprehension of the subject. Numerous well-balanced chapter-end exercises with answers to help students attain confidence and master the concepts. Illustrations on solutions to problems with the help of computer software. Summary at the end of each chapter to help students review the key concepts.
