Student Ownership Lewis M. Willian 2018-06-13 This book explains how to increase the percentage of students who graduate high school as college or career ready. Strategies explain how to implement a CCR culture through promoting student ownership of their own learning, and are designed to show teachers how to support student ownership. Each chapter is prefaced by real-world scenarios.

Core Curriculum Trainee Guide NCCER 2015 Welcome to the world of construction! Construction is one of the largest industries, offering excellent opportunities for high earnings, career advancement, and business ownership. Work in construction offers a great variety of career opportunities. People with many different talents and educational backgrounds -- skilled craftspersons, managers, supervisors, and superintendents -- find job opportunities in construction and related fields. As you will learn throughout your

training, many other industries depend upon the work you will do in construction. From houses and office buildings to factories, roads, and bridges -- everything begins with construction. -- Preface

Construction Technology National Center for Construction Educati 2009-06-22 This curriculum will ground you in the basic knowledge and principles of carpentry, masonry, concrete finishing, electrical work, HVAC, and plumbing. You will become skilled in different phases of a project from start to finish. When you complete this course, you will be able to interpret construction drawings, perform quality concrete and brickwork, frame walls, ceilings, and floors of a structure, and install the proper wiring and piping for electrical and plumbing systems. - To the trainee.
