Lily Marcia Reiss 2013-08-15 The Lily is a flower of contradictions. It represents both life and death, appearing at weddings and funerals. In their pure white form, lilies are a symbol of innocence, chastity, and purity of heart, but in contrast, the highly fragrant and intensely colored orange lilies symbolize passion. In Lily, Marcia Reiss explores these paradoxes, tracing the flower's cultural significance in art, literature, religion, and popular entertainment throughout history. Reiss journeys from the tomb carvings of ancient Egypt to the paintings of Claude Monet, Georgia O'Keeffe, and Salvador Dalí, exploring the lily as a subject of fascination and obsession. Unearthing many absorbing facts and fables about the blossom, she examines its use in cuisine and reveals them to have been a source of food and medicine in China for centuries. While Reiss focuses her attention on true lilies and the ornamental hybrids breeders have derived from them, she also provides extensive information about a wide variety of popular lilies, including daylilies, lilies of the valley, water lilies, and calla lilies. Filled with striking illustrations of these gorgeous plants, Lily is a book for gardeners and lily admirers alike.

Pre-Raphaelite Art in Its European Context Susan P. Casteras 1995 Pre-Raphaelitism continues to generate considerable scholarly interest, and a new revisionist approach is offered in Pre-Raphaelite Art in Its European Context, which attempts to evaluate the Pre-Raphaelite Brotherhood and their followers not in isolation as a solely British phenomenon but rather in terms of its larger Continental contexts in the nineteenth century. Essays by contributors forge links of Pre-Raphaelite art and thought with such movements as Impressionism, Symbolism, and the Rose + Croix salons. The essays reveal common themes, in literature and religion especially, on both sides of the Channel as well as underscoring the sustained influence on the Continent of John Ruskin, Dante Gabriel Rossetti, Edward Burne-Jones, and William Morris.

Monsters under Glass Jane Desmarais 2018-08-15 Monsters under Glass explores our enduring fascination with hothouses and exotic blooms, from their rise in ancient times, through the Victorian vogue for plant collecting, to the vegetable monsters of twentieth-century science fiction and the movies, comics, and video games of the present day. Our interest in hothouses can be traced back to the Roman emperor Tiberius, but it was only in the early nineteenth century that a boom in exotic plant collecting and new glasshouse technologies stimulated the imagination of novelists, poets, and artists, and the hothouse entered the creative language in a highly charged way. Decadent writers in England and Europe—including Charles Baudelaire and Oscar Wilde—transformed the hothouse from a functional object to a powerful metaphor of metropolitan life, sexuality, and being replete with a dark underside of decay and death; and of consciousness itself, nurtured and dissected under glass. In a study as wide-ranging, vivid, and beautiful as our beloved exotic blooms themselves, Jane Desmarais charts the history and influence of these humid, tropical worlds and their creations, providing a steamy window onto our recent past.

Michael Field Sarah Parker 2019-12-10 In the last twenty years, Michael Field has emerged as one of the most fascinating poets of the Victorian era. Through their collaborative partnership as "Michael Field," Katharine Bradley and Edith Cooper engaged in the aesthetic and decadent movements of the fin de siècle, while their poetry and verse drama articulate ideas associated with the New Woman and boldly express queer and lesbian desire. Michael Field: Decadent Moderns extends the focus on these key literary and cultural contexts by emphasizing their continuing significance within twentieth-century literary modernism. Through a series of interdisciplinary essays, this book addresses Michael Field's energetic engagements with a range of topics including ecology, perfume, tourism, art history, sculpture, formalism, classics, and book history. In doing so, Michael Field: Decadent Moderns highlights the modernity, radicalism, and relevance of their work, both within the nineteenth and twentieth centuries as well as in our own cultural moment. Contributors: Leire Barrera-Medrano, Joseph Bristow, Jill R. Ehnenn, Sarah E. Kersh, Kristin Mahoney, Catherine Maxwell, Alex Murray, Sarah Parker, Margaret D. Stetz, Kate Thomas, and Ana Parejo Vadillo.

Dreams and History Daniel Pick 2004-08-02 What is a dream? Dreams are universal, but their perceived significance and conceptual framework change over time. This book provides new perspectives on the history of dreams and dream interpretation in western culture and thought. Dreams and History contains important new scholarship on Freud's Interpretation of Dreams (1900) and subsequent psychoanalytical approaches from distinguished historians, psychoanalysts, historians of science and anthropologists. This collection celebrates and evaluates Freud's landmark intellectual production, whilst placing it in historical context. A modern view of psychoanalysis, it also discusses the controversial idea of the role of the external world on the shaping of unconscious mental contents. In highly accessible language it proceeds through a series of richly illustrated case studies, providing new source materials and debates about the causes, meanings and consequences of dreams, past and present: from Victorian anthropological exploration of ancient Greek dream sources to peasant interpretation of dream-life in communist Russia; from concepts of the dream in sixteenth-century England to visual images in nineteenth-century symbolist painting in France. Dreams and History will fascinate those interested not only in psychoanalysis and history, but also arts, culture, humanities and literature.

Time Present and Time Past Paul Barlow 2017-07-05 John Everett Millais (1829-1896) is undoubtedly among the most important of Victorian artists. In his day, and our own, he remains also the most controversial. While, during his lifetime, controversy centred around his early Pre-Raphaelite paintings, in particular Christ in the house of his Parents (1850), during the twentieth century the most intense criticism has been directed towards Millais's later works, such as Bubbles (1886), which has been widely condemned as sentimental 'kitsch'. These later paintings have been held up as the epitome of the degradation of art, against which avant-garde and Modernist pioneers struggled. None of the existing literature on Millais addresses the fundamental problem that this double-identity reveals. While there is extensive material on the Pre-Raphaelite movement in general, Millais's own work after the 1850s is rarely discussed in detail, despite the fact that he lived and worked for another 30 years after his abandonment of the Pre-Raphaelite style. Time Present and Time Past: The Art of John Everett Millais presents the first comprehensive account of Millais's artistic career from beginning to end. The book considers the question of 'high' and 'low' cultural status in debates during Millais's own day, and in subsequent critical thinking, situating Millais's art as a whole within this cultural framework.

Women Writers and Nineteenth-Century Medievalism Clare Broome Saunders 2009-02-02 Saunders uniquely explores how women poets, biographers, historians, and visual artists used medieval motifs, forms, and settings to enable them to comment more freely on controversial contemporary issues, such as war and gender roles.

After the Pre-Raphaelites Elizabeth Prettejohn 1999 What happened in Victorian painting and sculpture after the pre-Raphaelites? Aestheticism has been called the next avant-garde movement but attention has centred on literary figures such as Algernon Charles Swinburn, Walter Pater and Oscar Wilde. This volume overviews parallel trends in the visual arts, including the work of Dante Gabriel Rossetti, James McNeil Whistler, Edward Burne-Jones, Simeon Solomon and Albert Moore among others.

Christina Rossetti Emma Mason 2018-05-17 Christina Rossetti (1830-94) is regarded as one of the greatest Christian poets to write in English. While Rossetti has firmly secured her place in the canon, her religious poetry was for a long time either overlooked or considered evidence of a melancholic disposition burdened by faith. Recent scholarship has redressed reductive readings of Christian theology as repressive by rethinking it as a form of compassionate politics. This shift has enabled new readings of Rossetti's work, not simply as a body of significant nineteenth-century devotional literature, but also as a marker of religion's relevance to modern concerns through its reflections on science and materialism, as well as spirituality and mysticism. Emma Mason offers a compelling study of Christina Rossetti, arguing that her poetry, diaries, letters, and devotional commentaries are engaged with both contemporary theological debate and an emergent ecological agenda. In chapters on the Catholic Revival, Pre-Raphaelite Brotherhood, contemporary debates on plant and animal being, and the relationship between grace and apocalypse, Mason reads Rossetti's theology as an argument for spiritual materialism and ecological deformation. She ultimately suggests that Rossetti's life and work captures the experience of faith as one of loving intimacy with the minutiae of creation, a divine body in which all things, material and immaterial, human and nonhuman, divine and embodied, are interconnected.

"MY WORLD MY WORK MY WOMAN ALL MY OWN" READING DANTE GABRIEL ROSSETTI IN HIS VISUAL AND TEXTUAL NARRATIVES Srdiz Kilic 2014-08-15 Dante Gabriel Rossetti, Pre-Raphaelite extraordinaire, is unique as Victorian proto-expressionistic painter-poet, who relentlessly sought representation of a tormented personified-self through the communicative relationship between image and word. In this interdisciplinary study is considered the narrative interaction that unifies ideas and forms into a self-expressive dialectical that informs of autonomous individualism and gender politics as a social problematic. Rossetti, known universally as a charismatic and vibrantly passionate man, is tangibly revealed in the most tenderly transparent narratives to be a haunted and socially subjugated man who searched for self-definition as a man and as an artist. By an intricate analysis of key textual and visual narratives Yildiz Kilic provides an insightful and wholly original interpretation of Rossetti as Victorian victim and innovator.

The Language of Flowers Beverly Seaton 2012-10-10 The author traces the phenomenon of ascribing sentimental meaning to floral imagery from its beginnings in Napoleonic France

through its later transformations in England and America. At the heart of the book is a depiction of what the three most important flower books from each of the countries divulge about the period and the respective cultures. Seaton shows that the language of flowers was not a single and universally understood correlation of flowers to meanings that men and women used to communicate in matters of love and romance. The language differs from book to book, country to country. To place the language of flowers in social and literary perspective, the author examines the nineteenth-century uses of flowers in everyday life and in ceremonies and rituals and provides a brief history of floral symbolism. She also discusses the sentimental flower book, a genre especially intended for female readers. Two especially valuable features of the book are its table of correlations of flowers and their meanings from different sourcebooks and its complete bibliography of language of flower titles. This book will appeal not only to scholars in Victorian studies and women's studies but also to art historians, book collectors, museum curators, historians of horticulture, and anyone interested in nineteenth-century popular culture.

The Pre-Raphaelite Language of Flowers Debra N. Mancoff 2019-02-12 Containing a stunning array of romantic paintings, this book brings together two important aspects of Victorian culture—the Pre-Raphaelite movement and the meaning of flowers. Few artistic movements capture classic notions of beauty as romantically as the Pre-Raphaelites—a group of nineteenth-century painters and poets who aimed to revive the purer art of the late medieval period. In this beautiful volume, Debra N. Mancoff, an expert on Pre-Raphaelite art and the floral lexicon, presents forty breathtaking works, which illuminate the meaning of flowers in all aspects of Victorian culture. She offers brief commentaries on individual paintings as well as biographies of the period's leading artists and their models. This book is both a romantic keepsake as well as a captivating introduction to an artistic movement.

The Last Pre-Raphaelite Fiona MacCarthy 2012-03-05 In Fiona MacCarthy's riveting account, Burne-Jones's exchange of faith for art places him at the intersection of the nineteenth century and the Modern, as he leads us forward from Victorian mores and attitudes to the psychological, sexual, and artistic audacity that would characterize the early twentieth century.

Women's Suffrage in Word, Image, Music, Stage and Scree Christopher Wiley 2021-07-14 This collection of essays explores the myriad ways in which the women's suffrage movement in Britain in the nineteenth century and twentieth century engaged with and was expressed through literature, art and craft, music, drama and cinema. Uniquely, this anthology places developments in the constituent arts side by side, and in dialogue, rather than focusing on a single field in isolation. In so doing, it illustrates how creative endeavours in different artforms converged in support of women's suffrage. Topics encompassed range from the artistic output of such household names as Sylvia Pankhurst and Ethel Smyth, to the recent feature film Suffragette. It also brings to light under-represented figures and neglected works related to the suffrage movement. A wide variety of material is explored, from poems, diaries and newspapers to posters, dress and artefacts to songs, opera, plays and film. Published in the wake of the centenary of many women receiving the parliamentary vote in the UK, this book will appeal to scholars, undergraduate and graduate students, and members of the public interested in the broad areas of women's history and the women's suffrage movement, as well as across the arts disciplines.

Collecting the Pre-Raphaelites Margaretta Frederick Watson 2018-12-17 First published in 1997, and written by leading scholars of the day, these fifteen essays examine aspects of the reception and collecting of Pre-Raphaelite Art, the social and cultural context in which the work was favoured and acquired. Two major collections provide the focus for the investigation: that of the Birmingham City Museums and Art Gallery in the United Kingdom, and that of the American Samuel Bancroft Jr, now part of the Delaware Art Museum. The study of these two collections both formed in the late 1890s, places Pre-Raphaelite Art at nexus of contemporary cultural issues that touched the lives of both the city council, intent on establishing a public gallery of national importance, and a wealthy American businessman, indulging a private passion for the work of these artists. The contributors approach the issue in a variety of ways. These include the study of the ambitions and self-perception of collectors of the period, an analysis of the impact of John Ruskin's campaign to establish Pre-Raphaelite painting as the 'Art of England', and its impact on notions of civic and national identity; the examination of individual painting in relation to such issues as the portrayal of women, the nude and of religious subjects; and the study of the Victorian preoccupation with Renaissance Italy and the attempt by Ruskin, Charles Fairfax Murray, advisor to the two collections, and the Grosvenor Gallery, to proclaim the Pre-Raphaelite artists as the true inheritors of the 'genius' of Renaissance Italian artists. These essays were first presented at a symposium held at the Delaware Art Museum during the exhibition there of the paintings of Birmingham City Museums and Art Gallery.

Visual Words Gerard Curtis 2019-07-16 First Published in 2002, Visual Words provides a unique and interdisciplinary evaluation of the relationship between images and words in this period. Victorian England witnessed a remarkable growth in literacy culminating in the new literary nationalism that emerged at the beginning of the twentieth century. Each chapter explores a different aspect of this relationship: the role of Dickens as the heroic author, the book as an iconic object, the growing graphic presence of the text, the role of the graphic trace, the 'Sister Arts/ pen and pencil' tradition, and the competition between image and word as systems of communication. Examining the impact of such diverse areas as advertising, graphic illustration, narrative painting, frontispiece portraits, bibliomania, and the merchandising of literary culture, Visual Words shows that the influence of the 'Sister Arts' tradition was more widespread and complex than has previously been considered. Whether discussing portraits of authors, the uses of iconography in Ford Madox Brown's painting Work, or examining why the British Library was equipped with false bookcases for doors, Gerard Curtis looks at artistic and literary culture from an art historical and 'object' perspective to gain a better understanding of why some Victorians called their culture 'hieroglyphic'.

J.W. Waterhouse and the Magic of Color Dani Cavallaro 2017-02-28 English painter John William Waterhouse (1849-1917) communicates his distinctive aesthetic vision through his use of color. Throughout his career, he experimented with color as an element with seemingly spatial qualities. His works have an unusual formalism—figures and settings often appear not merely realistic but somewhat hyperreal. Yet paradoxically Waterhouse's works border on the abstract, prioritizing chromatic features over content. They invite us to focus on colors—and through them line, shape, texture and rhythm—in much the same way as works by Kandinsky, Klee, Matisse or Pollock.

Aestheticism and the Marriage Market in Victorian Popular Fiction Kirby-Jane Hallum 2015-10-06 Based on close readings of five Victorian novels, Hallum presents an original study of the interaction between popular fiction, the marriage market and the aesthetic movement. She uses the texts to trace the development of aestheticism, examining the differences between the authors, including their approach, style and gender.

The Pre-Raphaelite Art of the Victorian Novel Sophia Andres 2005 A provocative interdisciplinary study of the Victorian novel and Pre-Raphaelite art, this book offers a new understanding of Victorian novels through Pre-Raphaelite paintings. Concentrating on Elizabeth Gaskell, Wilkie Collins, George Eliot, and Thomas Hardy and aligning each novelist with specific painters, this work interprets narrative redrawings of Pre-Raphaelite paintings within a range of cultural contexts as well as alongside recent theoretical work on gender. Letters, reviews, and journals convincingly reinforce the contentions about the novels and their connection with paintings. Featuring color reproductions of Pre-Raphaelite paintings, this book reveals the great achievement of Pre-Raphaelite art and its impact on the Victorian novel. Arguing for the direct relationship between Pre-Raphaelite painting and the Victorian novel, this book fills a gap in the currently available literature devoted to the Victorian novel, the Pre-Raphaelites, and the connection of Pre-Raphaelite art to Victorian poetry. Visual readings of the Victorian novel channel the twenty-first-century readers' desire for the visual into the exploration of Pre-Raphaelite art in the Victorian novel, in the process offering fresh insights into the representation of gender in Victorian culture. Through a textual and a visual journey, this work reveals a new approach to the Victorian novel and Pre-Raphaelite art with profound implications for the study of both.
