Haunting Joy: The Complete Series: (Books 1 & 2 and Chain Reaction) Jennifer L. Holm 2018-10-05 "A sweet and charming ghost story that completely won me over." Lena Coakley, Witchlanders This complete series edition includes Haunting Joy Books 1 & 2, and Chain Reaction, a short story. Book 1 The ghost of Beth sweeps seventeen-year-old Joy into an extraordinary journey to complete her family business...and challenges her to make some dangerous choices. Like calling Joy's high-school crush, Nick, for help. A soft, sliding

sigh wakes me up. It's hardly a noise at all. I blink to clear my sticky, early-morning vision. I know I heard a sound, an almost-sounding sigh, coming from the corner of my room. As I slide my gaze that way, a chill slithers over me. My room feels creeping. I peer into the corner and the white dress is no longer heaped in a haphazard pile on my armchair. It's laid out nice and neat, straps up over the back cushion and the skirt spread over the seat. The flip-flops are sitting side by side in front of the chair toward me. Like there's an empty girl, in an empty dress, looking right at me. Book 2 I step out of the shower into my steam. Then I see it. I whip a towel around me so fast I almost wipe out on the tile floor. Because apparently I'm being haunted again by who scrawled KYLE across my bathroom mirror with his ghostly finger. Joy's new ghost, Kyle, crashes into her life, disrupting her year...and complicating her relationship with her new boyfriend, Nick. Which is already complicated enough. Haunting Joy: The Series is part slightly spooky ghost story and part sweet romance wrapped in one. For teens and young adults. "A sweet, creative journey..." Essential Novelists - Eric Rücker Eddison 2020-05-10 Welcome to the Essential Novelists book series, were we present to you the best works of remarkable authors. For this book, the literary critic August Nemo has chosen the two most meaningful novels of Eric Rücker Eddison which are *The Worm* and *Mistress of Mistresses*. Eddison's books are written in a recreated Jacobean prose style, seeded throughout with fragments, often acknowledged but often directly copied from his favorite authors and genres: Homer and Sappho, Shakespeare and Webster, Norse sagas and French medieval lyric poems. Critic Andy Sawyer argues that such fragments seem to arise naturally from the "barbarically sophisticated" worlds Eddison has created. Novels selected for this book: - *The Worm*. - *Mistress of Mistresses*. This is one of many books in the series Essential Novelists. If you liked this book, check out other titles in the series, we are sure you will like some of the authors.

Journeys Through Time & Space by Mark Twain 2017-07-11 A Nebula Award winner presents tales that shaped modern science fiction and fantasy—five complete novels by Mark Twain, H. G. Wells, and more. In this handpicked collection, New York Times–bestselling author Greg Bear travels back to the late nineteenth and early twentieth centuries, when novelists let their imaginations soar beyond the boundaries of time and space and contributed to the emergence of imaginative new literary genres. In 1889, Mark Twain introduced Americans to time travel in *A Connecticut Yankee in King Arthur's Court*, in which a hard-headed New Englander is sent back through history to the age of chivalry. Six years later, H. G. Wells propelled an intrepid inventor into the far future via *The Time Machine*. Our fearless hero discovers a nightmarish evolutionary scenario in which technologically advanced but mutated Morlocks dwell underground, preying on the innocent aboveground Eloi. In 1912, long before Ray Bradbury or *Star Wars*, Edgar Rice Burroughs imagined the first wildly popular alternative fantasy/alien culture with *A Princess of Mars*, transporting readers from Arizona to a planet, where Confederate soldier John Carter is swept up in another kind of civil war and seduced by a gorgeous red-hued princess. In 1920, Scottish novelist David Lindsay presented *A Voyage to Arcturus*, an interstellar quest for truth as well as an inquiry into the nature of good and evil that inspired generations of fantasy writers to come. And in 1922, E. R. Eddison turned the planet Mercury into a version of Earth where demons and witches wage war on a Homeric scale in *The Worm Ouroboros*. With an insightful introduction, this collection celebrates the writers who first swept readers away to other times and worlds—and blew their minds in ways that altered the literary landscape and collective imagination forever.

Worlds of Ink and Shadow by Lena Coakley 2016-01-05 Charlotte, Branwell, Emily, and Anne. The Brontë siblings find escape from their constrained lives via their rich imaginations. The glittering world of Verdopolis and the romantic and melancholy world of Gorgeously come to life under their pens, offering the sort of romance and intrigue missing from their isolated parsonage home. But as Branwell begins to slip into madness and the sisters feel their real lives slipping away, they must weigh the cost of their powerful imaginations, even as the characters they have created—the brooding Rogue and dashing Duke of Zamorna—refuse to let them go. Gorgeously written and based on the Brontës' juvenilia, *Worlds of Ink and Shadow* brings to life one of history's most celebrated families in a thrilling, suspenseful fantasy.
